Online Provider Directory
(Medicaid and Medicare)

Molina Healthcare's online provider directory is available 24/7, which makes it an essential tool for both Molina members and primary care providers. Providers can use the directory to research other contracted providers and specialists to assist in members' care. Members can reference the directory to find nearby care, learn which clinic offices accept Molina insurance, or find holistic providers or mental health professionals in Molina's network. To use Molina's online provider directory:

- Visit MolinaHealthcare.com
- Select "Find a Doctor or Pharmacy" from the navigation bar
- Select a 'State' and a 'Language'
- Select a 'plan/program' and enter 'City & State, County or Zip'
- Use the "Browse by Category" selection menu to search for specific programs, specialties and facility categories or use the 'key word' search box.

Please contact Molina's Member and Provider Contact Center at (800) 869-7165 with any questions about the provider directory.

Thank you for your continued service to Molina members.
