

Provider Newsflash

A fax bulletin for the Molina Healthcare of Washington Provider Network

New Clinical Practice Guideline Updates (Medicaid, Marketplace, Medicare)

Dear Provider:

July 2020

Molina Healthcare works to provide the most up-to-date treatment and diagnostic information to our provider partners. Clinical Practice Guidelines (CPGs) define an expected standard of practice for providers specific to membership demographics and service needs. CPGs serve to provide general guidance to providers who are always encouraged to use their best clinical judgment when applying guidelines to their patients.

The Molina Healthcare of Washington Quality Improvement Committee (QIC), which includes members of the provider community, reviews the most current version of each CPG at least once every two years or more often as national guidelines recommend and then approves or modifies for continued use.

The following CPGs were recently approved by the QIC and posted on the Molina website at http://www.molinahealthcare.com/providers/wa/medicaid/resource/Pages/guide_clinical.aspx:

- General Anxiety/Panic Disorder
- Bipolar Disorder
- PTSD

If you have any questions, please call us at (855) 322-4082. Thank you for your partnership and dedicated service to Molina members.
